

60kV Primary Distribution Box

Overview

The PD Power Systems 60KW PDP is designed to accept power at 120/208 VAC, 3-phase, utilizing 200 amp Power connectors. ABB's medium voltage switchgear (1 kV to 52 kV according to the IEC standards) are designed to connect and protect an evolving grid. Mersen power distribution blocks provide a safe and easy method of splicing cables, splitting primary power into secondary circuits and fulfilling requirements for fixed junction tap-off points. SMART DISTRIBUTION BOXES FOR FLEXIBLE BUILDINGS. The circuit breakers. The Larson Electronics MPD-480V-45KVA-400. This system provides operators the ability to safely tap into and distribute 480VAC power. Schneider Electric aims to achieve Net Zero status by 2050 through supply chain partnerships, lower impact materials, and circularity via our ongoing "Use Better, Use Longer, Use Again" campaign to extend product lifetimes and recyclability. North American Safety Approval for Device Management.
