

Are those fiber optic routers in Barbados

Overview

Barbados has become the first island in the Caribbean to be fully wired by fiber optics, said FLOW, the regional subsidiary of telecommunications giant Cable & Wireless as it completed its fibre to the home (FTTH) network rollout. The replacement of traditional copper wire with fibre connection. The local internet market is evolving fast with more ISPs offering mobile broadband, fiber optic, and satellite connectivity. What is the most recommended internet provider in Barbados?

1. The initial phase of construction extended from Needham's Point, Saint Michael, Barbados. Also known as 'fiber' or 'fiber internet', fiber-optic internet is an internet connection that can reach high speeds of up to 940mpbs (megabits per second) with little to no lagging. This technology uses fiber-optic cables, sending data at around seventy percent the speed of light.
