

Austrian fiber optic KVM agent system brand

Overview

kvm-tec electronic is the Austrian developer and manufacturer for KVM extenders and switching systems for control centres. The company's products have a failure rate of less than 0.10%, and its patented technology enables high-resolution video transmission in real-time with standard CAT 5 cables. This allows you to operate a computer from a workplace up to 10,000 meters away. Using KVM, you can easily separate computers and users to make your workplace more ergonomic and increase the security of your IT. KSI is now part of a global group with companies in several countries around the world and 3 of its own production plants in the far east. kvm-tec describes itself – and the kvm-tec spirit Powerful, innovative, classy, made of curiosity. Magenta Telekom, a leading telecommunications provider in Austria, offers high-speed internet via fiber coaxial cables, highlighting its commitment to cutting-edge technologies that enhance digital living.
