

Cameroon fiber optic cable installation

Overview

Cameroon's incumbent telecom operator, Camtel, has announced the deployment of an additional 3,500 km of fiber optic cable starting in 2024. Speaking about the project last October 17 during the Yaoundé Digital Week, MD Judith Yah Sunday said it primarily targets rural areas. On June 19, the two organizations signed a framework agreement for mutual infrastructure sharing. "This collaboration. ROOT IT is an established Infrastructure and Telecommunication services provider specialized in designing, implementing and maintaining network infrastructure. We build quality infrastructure using the best available technology to ensure that what we do meets or exceeds the highest standards. It aims to complement the 12,000. We Deploy optical fiber and cable both underground and aerial, we Install ATB, TB, FDT for FTTH, FTTX, FTTD, FTTA, we do Fiber Testing, splicing Termination including Trenching and building manholes and handholes. The partnership will improve connectivity in Cameroon and support the increasing demand for internet.
