

Computer Room Cable Management Solution

Overview

Whenever you need them, all you need to do is pull the cable towards you. Apart from making your work easier (and cleaning up your desk of messy cables), the Anker magnetic cable holder ups the look of your desk. If you do not use a wireless charging pad, this is a good pick. The slits also ensure that the heat is easily dissipated. This metal cord organizer is suitable for tiled, wooden, and glass tables. The company ships mounting accessories like adhesive pads and screws for proper installation. Interestingly, you can also paste two J-channel raceways one after the other, if you have a long desk. After that, you can drop the needed cables on the raceway to solve (some of) your cable woes. Do note to tie a few cables with zip ties to ensure a clean installation. It's worth noting that the Chouky cable management boxes have different dimensions, and you can use them as per the situation at hand. One of the boxes measures approximately 12.6 inches in length, while the other one measures 16 inches. As such, these can easily hold medium-sized power strips. After everything is in place, put them on the table's. Once assembled, you will need to route the charging cables to attain a clean look. Interestingly, this headphone stand is popular on Amazon and has received its share of love. At the time of writing, it had over 25,000 user ratings, with people appreciating its value-for-money proposition and easy-to-use design.
