

Croatia fiber optic cable connection

Overview

According to figures released by the Croatian Regulatory Authority for Network Industries (HAKOM), the number of fibre connections rose by 106,474 compared to mid-2024, while copper networks lost 68,191 users. More than half of Croatian internet users now enjoy speeds of 100. In October, OIV successfully expanded the OIV DWDM network with two new nodes, thus ensuring the connection of all corners of our country with fiber optic cable, which ensures redundancy and increases service availability. Namely, for many years OIV had planned to connect the north and south of. Dark Fiber is a wholesale telecommunications provider specializing in connectivity solutions across Southeast Europe, particularly in the Balkans region.
