

Dual-core multimode fiber optic 10 Gigabit

Overview

Our 10G Dual Fiber SFP+ transceivers provide fast, reliable connectivity for data centers, enterprise networks, and telecom applications. Designed for high performance, these modules support long-distance transmission with minimal latency. A broad range of industry-compliant SFP+ modules for 10 Gigabit Ethernet deployments in diverse networking environments. Trusted by 260K+. As network speeds continue to increase across data centers and enterprise infrastructures, 10-Gigabit Ethernet (10GbE) has become a standard for high-bandwidth connectivity between switches, servers, and storage systems. One of the most widely deployed optical solutions for short-distance 10G links. Upgrade your network with our high-quality fiber patch cables, designed for lightning-fast speeds, reliability, and long-term performance. Compatible with a range of fiber types, they offer a.
