

Energy-saving cable tray project in Cameroon

Overview

A new data centre project used sustainable cable tray technologies made from 75% recycled aluminium. This helped the project get a high LEED certification score. From large infrastructure projects in Douala and Yaoundé to industrial facilities across the country, Ned-Tech is a trusted cable tray supplier in Cameroon, providing durable, affordable, and high-performance solutions. To address this issue, Cameroon outlined a strategy in 2003 aiming for a production capacity of 3000 MW by 2020. However, by 2020, production had only reached 1040 MW, leading Cameroon to devise a new national. In addition to hydropower, Cameroon is developing several solar photovoltaic plants with a total installed capacity of 250 MW to transition to a greener electricity generation mix. PIRECT (Projet d'Interconnexion des Réseaux Electriques du Cameroun et du Tchad) is an interconnection project whose main goal is to. Tired of messy wires causing headaches?

Brilltech Engineers Pvt. brings the Cable Trays in Cameroon just for you! We, one of the well-known Cable Trays Manufacturers in Cameroon, offer top-notch trays that keep your electrical system organized and protected. Our durable, high-quality trays. They are vital for managing cables in buildings, factories, and data centres.
