

HP Fiber Optic Switch SNMP

Overview

Open a browser software, enter the IP address of your Switch and access the HP Switch web interface. After a successful login, the administrative menu will be displayed. Access the Device menu, and select the. Would you like to learn how to use Zabbix to monitor an HP Switch?

In this tutorial, we are going to show you how to configure the SNMP service on an HP Switch and how to use Zabbix to monitor the HP Switch using SNMP. (See "DHCP/Bootp Operation".) Once you have configured an IP address, the main steps for configuring SNMPv3 access management features are the following: Enable SNMPv3 for operation on. You can manage the switch via SNMP from a network management station running an application such as ProCurve Manager (PCM) or ProCurve Manager Plus (PCM+). For more on PCM and PCM+, visit the ProCurve Networking web site at: Click on products index in the sidebar, then click on the appropriate link. We are going to monitor HP Switch with Zabbix via SNMP. I'll take you through the process. After that you can run auto discovery, that should give you some sensors (depending on which. If this is your first visit, be sure to check out the FAQ by clicking the link above.
