

# Hand-cranked optical cable traction machine

## Overview

Manual (Hand-Cranked): Simple, portable, and maintenance-free. Used for light-duty or emergency applications where power is unavailable. Limited in pulling force but highly reliable in remote or confined spaces. Municipal enterprises, telecommunications and other enterprises often have to carry out underground pipeline construction wiring, in the traditional cable and cable construction process is difficult, time limit is tight, inevitably need a large number of manpower, and the construction period is. A cable traction machine is a mechanical device used to pull, lift, or tension cables, ropes, or wires across various industrial applications. 6mm steel stranded wire, 4\*35mm<sup>2</sup> cable. It is used for long distance transmission of large section cable, especially suitable for long distance laying of various types of cables such as tunnel, pipe row, directly. Professional optical cable traction machine designed for fiber optic cable installation and construction projects. Fiber Optic Cable Tractors For Cable Puller, Cable Hauling Machine Suntech Power is a Professional manufacturer of transmission line stringing tools and equipments in Ningbo, China.
