

Huawei Data Center Modular UPS

Overview

Huawei UPS5000-E (30-800kVA) is a modular UPS solution, delivering scalable, efficient power protection for medium-sized data centers and critical infrastructure with high reliability. computing, traditional data centers face fast transformation. The Outdoor Power Supply Solution for Large-scale Data Centers Indoor power supply and distribution system designed for medium- and large-sized DCs For medium- and large-sized DCs and industry critical power supply For medium- and large-sized DC and industry critical power supply For small- and. The Huawei UPS5000-A (30-600kVA) is a tower UPS for small to medium data centers, telecom rooms, and financial branches, providing reliable power protection. Huawei has just launched its next-generation modular data center and power supply solutions at the Digitally Transforming Energy Infrastructure event, an online event that focused on opportunities in the digital power field, from green energy to intelligent transformation.
