

Huawei Fiber Optic Switch 2 Optical 4 Electrical

Overview

The Huawei OOSPL2400 is a high-quality bare optical splitter designed for efficient signal distribution. It features a 2:4 even split ratio without connectors, making it a versatile component for various fiber optic applications. Its compact size of 50*4*4mm, along with a SPL9102-PLC module and. Huawei fiber-optic switches are advanced networking devices designed to support high-speed data transmission across modern enterprise and service provider infrastructures. Leveraging the power of optical fiber technology, these switches deliver ultra-fast communication speeds, high bandwidth. If an optical module has been certified by Huawei, its label contains "HUAWEI", as shown in Figure 1-1. In the display elabel command output, the Manufactured field displays a date later than 2013-07-01. The CloudEngine S5732-H Series Hybrid Optical-Electrical Switch is a new generation of 10 GE access switch, featuring 24 optical and 24 electrical downlink ports plus four 25 GE uplink ports and either two 40 GE or two 100 GE. Hybrid cables are next-generation transmission cables developed based on Huawei's innovative optical-electrical PoE solution. distance and high-power PoE++ power supply for them.
