

Huawei S5700 Optical Port Module

Overview

Product Code S5700S-28P-LI-AC Ports 24 GE ports, 4 GE SFP ports Forwarding Performance 42 Mpps Switching Capacity 256 Gbit/s Stack Supported RAM 256 MB Flash 32 MB Power AC Power Supply, 100-240V, 50/60Hz Dimensions (W x D x H) 44.36 cm Product Details The Transceiver This section describes how to install an optical module. The method used to install a copper transceiver module is the same, except that the copper transceiver module connects to a network cable instead of optical fibers. How to Stack Huawei S5700-28X-LI-AC Switches Through Service Ports?

Solution: The stacking method and steps for Huawei S5700-28X-LI-AC Switch are as follows: The connection topology for service port stacking includes chain and ring connections. Configure the first two 10G optical ports of each. HUAWEI S5700-24TP-SI (AC) switch is one of the more popular products. Table 10-3 lists the models and attributes of. S5700-28P-LI-AC switch combines reliable, safe, green and other advanced technologies, use simple and convenient installation and maintenance measure, help customers to reduce the pressure of network planning, construction and maintenance, help enterprises build future oriented IT network.
