

I-beam reel for optical cable steel wire

Overview

These fully machined reels are suitable for drawing, stranding and bunching of cable and all types of wire. They are dynamically balanced for speeds from 25m/s to 50m/s. The reel dimensions are according to client specification or international industry standards. Cable reels that aren't engineered for the cable diameter, spool weight, and handling method of the application create handling problems, storage inefficiency. SCQ Steel cable Reels, LLC NEMA Class 1 & II Specifications General Purpose Steel Fluted Returnable Reels for Wire & Cables Class I Drum U. S Flange Head Sheet USS Gauge Flange Head Sheet U. S Gauge Notes: Type RMT RMT RMT RMT RMT RMT RMT RMT Notes: REEL DIMENSIONS Max. Complete line of quality steel reels for wire and cable process and shipping applications. Comprehensive line of take-apart reels for production of reel-less coils is. Manufactured at TELMAKSAN 's advanced reel and spool fabrication facilities our steel reels and drums are suitable for a variety of process, shipping applications and can be used in all aspects of in-house winding.
