

Indian imported telecom-grade router 1G

Overview

ICT01G is a next-generation Gigabit Passive Optical Network (xPON) router, ideal for Fiber to The Home solution. It's an incredibly robust device allowing users to access high-speed internet connections via its EPON or GPON port and share it with a Gigabit Ethernet port. Check each product page for other buying options. D-Link M30 |WiFi 6 Speed 3000 Mbps |Covers Upto 2800 Sq. |Dual Band |Gigabit Port|AI Powered Mesh Router |High-Performance |360 Degree Spherical Coverage|MTCTE Certified Need help?

The KONT-1701 is a compact subscriber end equipment designed and optimized to provide superfast data connection to the subscriber. The KONT-1701 has one 10/100/1000 Base-T port that can be used to provide high speed data, voice and video services. @anon50098793 The router I linked seems to be more than capable of routing 1 Gbps as it advertises "1200 Mbps Wi-Fi Speed", and I am not really going to use all of it any time. Multiple Operating modes: Router mode : to access the internet. Repeater mode : to extend the range of existing wireless router. Our rankings are cleverly generated from the algorithmic analysis of thousands of customer reviews about. DIGISOL DG-GR6010 is a Dual Mode Routing ONU modem designed for fulfilling FTTH ultra-broadband access request of home and SOHO users. It is based on the stable and mature EPON/GPON technology, which has high performance to price ratio.
