

Indoor distribution box 500

Overview

Metal lockable indoor distribution box in white color with dimensions 500x500x200mm has several break holes on the top and bottom. The cabinet is made of galvanized sheet metal with glossy lacquer finish. The 500A DC Busbar Distribution Box is a complete, ready-to-use solution for centralising and securing DC power distribution in medium- to high-power solar installations. It incorporates two copper busbars (positive and negative) and four 125A DC circuit breakers, enabling up to 4 batteries. Various versions of distribution boxes, a large selection of materials, voltage ranges, rated currents and IP protection types / protection classes for indoor and outdoor use, as well as a wide range of accessories and tools such as WAGO plug-in terminals, crimping tools, cable ties, wire end. The Merlin Gerin Stainless Steel Distribution Box (500x600x200mm) is designed for safe, efficient, and reliable electrical power distribution. In order to write a review or rate this product you must be a registered user. Designed for use in residential, commercial, and industrial applications, this stainless steel distribution box.
