

Industrial Gateway Gigabit Switch Enterprise

Overview

25G independent gateway with multi-WAN load balancing, 12.5 Gbps IPS routing, and redundant hot-swap PSUs. Managed with a CloudKey, Official UniFi Hosting, or UniFi Network Server with UniFi Network 8.32 and later Shadow Mode High Availability with automatic failover provides uninterrupted. Advantech's industrial Ethernet solutions provide an abundance of product options including managed and unmanaged switches, Gigabit Ethernet switches, PoE switches (IEEE 802.3at), protocol switches, EN50155 and IEC61850-3-certified switches, and SFP modules with rackmount and. WAGO's range of switches ensures the scalability of your ETHERNET network infrastructure, while providing outstanding electrical and mechanical characteristics. Unmanaged and managed switches in various designs are available to enhance performance and security. These robust switches are designed. With high-speed 10-GE uplinks, high-wattage PoE options, ultra-low jitter, advanced network security features, and device-to-cloud performance monitoring with the Cisco ThousandEyes agent, these modular switches are your foundation for industrial AI. The rugged design features of our network switches, combined with the build-in data security, makes sure that networks will rarely fail. Ruijie offers next-generation industrial Ethernet switches designed for harsh industrial environments, providing flexible full-gigabit access as well as 10GE uplink ports, and supporting a wide operating temperature range and surge protection.
