

International Certification Standards for Distribution Boxes

Overview

To comply with global distribution box regulations, you must meet region-specific standards including UL/NEC 1 in North America, IEC/EN standards 2 in Europe, AS/NZS 3 in Australia, and various Asian requirements. BRCGS Global Standard Storage and Distribution Issue 4, launched in 2020, reflects best practice and facilitate a process of continual improvement through well-designed risk-based product safety management systems. It ensures the quality and safety of products during their storage and distribution. 55. 020 - Packaging and distribution of goods. Certification demonstrates your commitment to the safety, quality and operational criteria required to fulfil obligations with regards to legal compliance and protection of the consumer in B2B (e. product/ingredients manufacturers), retail and catering. Each requires specific testing for electrical safety, environmental protection. The International Electrotechnical Commission (IEC) establishes global baseline standards that form the foundation for regional adaptations.
