

Jamaican company producing electricity

Overview

This is a list of electricity-generating power stations in Jamaica, sorted by type and name. In Jamaica, the Jamaica Public Service Company (JPS) has a monopoly on the "transmission, distribution and supply of electricity". However, JPS does not have a monopoly on. In 2025, the JEP group of independent power plants generated over 900,000 megawatt hours of energy. Jamaica Energy Partners (JEP) commenced operations in September 1995, through its ownership of the Doctor Bird Power Plant. The company is currently the largest Independent Power Producer (IPP) in. Wigton Energy is the region's largest renewable energy company, with over 20 years of experience delivering clean, reliable power at scale. JPS provides electricity service to 680,000 residential and business customers through an integrated system that includes several power generating plants, and an island-wide transmission and distribution network. This oil import dependency comes at a high cost.
