

Kuwait SFP Optical Module 200G

Overview

The QSFP56 200G optical module is a high-performance, low-power fibre-optic communications device that supports data rates up to 200Gbps, ensuring superior performance in large-scale data traffic processing and transmission. Key Features Supports 200Gbps data rate, up to 53. 125Gbps. SULITON has the ability to provide OEM and ODM of dozens of optical modules from 1G to 800G at a price that satisfies you. It is compatible with most switches (CISCO, Huawei, etc) Compared to existing QSFP28, it has fewer optical components, excellent power consumption, and cost performance. We. 10Gtek's 200G QSFP56 FR4 transceiver module is designed for use in 200 Gigabit Ethernet links over 2Km single mode fiber. The module has 4 independent electrical input/output channels operating at 26. Svelol offers a range of 200G solutions in both QSFP56 and QSFP-DD packaging to meet diverse connectivity needs.
