

Meter Box High and Low Voltage Complete Set of Equipment

Overview

This solution covers a complete set of power equipment from low-voltage distribution cabinets, high-voltage switchgear to transformers, automation control systems, etc., aiming to provide comprehensive and customized power solutions for various users. The cable connectors in the tap boxes feature high-grade insulation. Our high and low voltage complete electrical equipment solutions are designed based on a deep understanding of the current development trends in the power industry and accurate predictions of future power demand., to achieve accurate. GGD is a Fixed Complete-set Switchgear Equipment with simply and flexibly. The. Overview PXD1-1 is used for single phase meter and has the characteristics of anti-dust, waterproof. UV resistance, high flame-retardant grade and high strength. It can be made of PC, ABS Alloy or Simple metal.
