

Moroccan telecom operator fiber optic cable

Overview

The southern part of the “West Africa” submarine fiber optic cable, affiliated with the Marocain Télécom Group, has been in service since July 2021 and connects Morocco to Ivory Coast, Togo, Benin, Gabon and Mauritania, through seven points. FBR CABLES designs and manufactures high-performance fibre optic cables in Morocco for operators, integrators and FTTH projects. Backed by advanced production capabilities, we deliver certified quality, controlled lead times and local technical support. The only fibre cable company in Morocco. Morocco has taken a significant step toward strengthening its digital infrastructure with FBR Cables' launch of a major new industrial platform aimed at boosting domestic fiber optic cable production. 7 million) industrial investment aimed at strengthening domestic production capacity. Morocco's Minister of Industry and Trade, Ryad Mezzour, attended. Our solutions and products are designed to help build high-performance networks so that they can be used efficiently, enabling operators and installers, as well as engineering offices and other stakeholders to provide end-users with top-quality service. FBR CABLES inaugurated its new industrial.
