

Optical Module Housing Screening Machine

Overview

A fully automated intelligent system integrating auto-loading/unloading, cleaning, and inspection. Features high efficiency, reliability, and Return on Investment, commonly used in technical/business contexts for brevity, with industry-leading detection capabilities. Our automated vision inspection solutions and sorting machines feature industrial image processing and help customers to achieve both goals - always with the focus on added value. Proprietary auto-cleaning. Our vision of the lab of the future is crystal clear: It will be digital, powerful, cost-efficient, sustainable and high-quality. Our broad range comprises 3D AOI systems, Through Hole or THT AOI, Modular AOI, Double Sided AOI and Solder Paste Inspection systems (SPI). Mek, also known as Marantz Electronics. VisionGauge® OnLine Automated Optical Inspection Systems (AOI systems) are fully-automated 3D inspection and measurement systems capable of delivering high-accuracy results for various applications and industries.
