

Specifications and dimensions of steel wire rope for communication optical cables

Overview

Constructions: 6x19 S, 6x19 W, 6x25 F, 6x26 WS, according to grade and diameter. For other diameters or grades not specified in this catalogue, please contact IPH. Numerous service centres and subsidiaries worldwide are responsible for sales and distribution. Whether you're looking for strength, flexibility, or corrosion resistance, we have you covered! All of our wire rope is offered in both Galvanized Steel and Stainless. Within this Technical Guidance section you'll find the basic properties of a steel wire rope. [VIEW OUR STEEL WIRE ROPE](#) What is a Steel Wire Rope?

A steel wire rope is made up of individual steel wires spun into a strand. Test data for effects of Swivels on wire rope provided by Casar. Included in this specification are wire ropes in various grades and constructions from 1/4 in [6 mm] to 23/8 in. [60 mm] manufactured from uncoated or metallic coated wire.
