

Triple-network integrated wiring cabinet

Overview

The EtherNet/IP In-cabinet Solution allows you to replace traditional point-to-point wiring with network-based connections, decreasing time and resources for wiring and setup. Ethernet capability allows for easy integration between your IT (Information Technology) and OT (Operational Technology) systems. This technology reduces the. Belden offers a complete line of open frame racks and cabinets that support all applications, from single-rack or cabinet applications (such as retail and telecom closets) to high-density, multi-rack/multi-cabinet patching and switching fields (in computer rooms, data centers and central offices). nVent HOFFMAN provides high quality, configurable racks and cabinets designed for any Data Center and Networking application Lead Time - View accurate lead times to plan your delivery expectations. Faster Delivery - Enjoy expedited shipping options for quicker turnaround. The average annual PUE of the netcol5E is less than 1.
