

Tunisia ADSS optical cable 12 cores

Overview

This specification covers the construction all dielectric self-supporting Optical Fiber Cable (ADSS) properties for outdoor application. The optical fiber cable contains 12 cores (6cores/tube) single mode ITU-T G. It is: All-dielectric: Non-metallic features, providing a. All-dielectric self-supporting (ADSS) cable is a type of optical fiber cable that is strong enough to support itself between structures without using conductive metal elements. In this article, GL FIBER explores the features, applications, and benefits of this cutting-edge cable. This self-supporting cable integrates 12 individual fiber optic cores within a robust protective. Get ready for the latest and greatest in optical fiber technology with ADSS 12 24 48 72 96 CORE fiber cables! Our advanced design offers maximum performance, and resilient connections across a range of core diameters to fit any environment.
