

Txdqpz30 distribution box

Overview

PZ30 lighting distribution box is suitable for frequency 50HZ, rated voltage 500V and below, load current is not greater than 100A single-phase and three-phase circuits, for power and lighting, motor control, overload, leakage and short circuit Road protection. The PZ30 series is used as a terminal combination type distribution box with a rated operating voltage of AC380/220V. It is a complete set of devices that control electrical equipment and. We are Specialized in producing and supplying portable distribution box, waterproof plug, socket, circuit breaker, wall switch, waterproof plastic and Aluminum box. all products comply with IEC, A S/NZS standard. passed CE, IP66, ROHS certificates. Advanced process technologies, standard production. The series products are made of standard cold-rolled steel and use powder-coating techniques to process the crust. The outlook is beautiful and fit for surface and flush install.
